SUMMARY

JavaScript/TypeScript Developer specializing in high-performance, scalable web applications across front-end and back-end. Proficient in **Next.js**, **React.js**, **Node.js**, **Express.js**, **TypeScript**, **MySQL**, and **MongoDB**. Delivered measurable results, including a **15%** boost in conversions and **30%** faster load times for one of Nigeria's largest food chains. Results-oriented problem solver, clear communicator, and committed to continuous learning and innovation.

EXPERIENCE

Mactavis Digital, Remote [Front-End Engineer]

March 2025 – Present

- Developed internal dashboards and screens, improving operational workflows and enabling data-driven decisions.
- Engineered and launched high-traffic websites for Kilimanjaro and Pizza Jungle; one of Nigeria's largest food chains, serving **10M+** customers annually.
- Optimised the online ordering experience, achieving a **30%** faster page load speed and driving a **15%** boost in order completions within the first month.
- Delivered pixel-perfect, mobile-first interfaces using **Vue.js**, **Nuxt.js**, and **TypeScript**, ensuring flawless performance across devices.
- Partnered with cross-functional teams to integrate **APIs**, streamline complex ordering logic, and maintain **99.9%** uptime during national campaigns and peak-hour surges.

Weeshr, Remote [JavaScript/TypeScript Engineer]

February 2024 – February 2025

- Developed internal dashboards and screens, improving operational workflows and enabling data-driven decisions.
- Delivered responsive and interactive front-end solutions using **Vue.js**, **Pinia**, and **TypeScript**.
- Collaborated with the QA team to ensure high-quality releases.

Taojaa.com [JavaScript/TypeScript Engineer]

January 2023 – January 2024

- Designed and optimised landing and storefront pages for vendors using **Next.js** and **React.js**.
- Built and integrated **APIs** for newsletter sign-ups and product reviews using **Node.js** and **Express.js**.
- Focused on user engagement through intuitive UI and scalability of core features.

KiaKiaprint.com [Front-End Developer]

April 2021 - November 2022

- Designed and implemented a user-friendly printing order interface with **React.js**.
- Created front-end components for order management and tracking functionality.
- Ensured seamless integration with backend services using **Redux** and **Firebase**.

EDUCATION

University of Ilorin
BSc. Accounting, 2017

Skill Development Council Canada
Diploma in Software Development, 2024
