

Ufuoma Precious Ohworakpo

Software Engineer | Frontend & Mobile Developer

+234 806 459 2287 | amazingufy@gmail.com | github.com/ufyy01 | ufuomaohwo.online

PROFESSIONAL SUMMARY

Software Engineer specializing in frontend and mobile application development with JavaScript and TypeScript. Experienced with React.js, Next.js, React Native, Vue.js, Nuxt.js, Node.js, Express.js, MongoDB, and MySQL. Delivered measurable product improvements, including 30% faster page loads and a 15% increase in order completions. Strong cross-functional collaborator focused on scalable, user-centered digital products.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript

Frontend: React.js, Next.js, Vue.js, Nuxt.js, Pinia, Redux

Mobile Development: React Native, Expo

Backend: Node.js, Express.js

Databases & Platforms: MongoDB, MySQL, Supabase, Firebase

PROJECTS

FaithLog | Mobile Developer | React Native, Expo, TypeScript

- Built and launched FaithLog on Android, a mobile app for faith journaling, prayer tracking, and Scripture engagement, now available on Google Play.
- Developed mobile features including rich journaling, photo and voice capture, home-screen widgets, NFC/photo reading check-ins, cloud sync, device linking, in-app purchases, and a private vault.

Google Play: play.google.com/store/apps/details?id=com.bynstudios.faithlog

PROFESSIONAL EXPERIENCE

Mactavis Digital | Front-End Engineer | Remote

Mar 2025 - Present

- Built internal dashboards and operational screens that improved workflows and supported data-driven decision-making.
- Engineered and launched high-traffic websites for Kilimanjaro and Pizza Jungle, serving 10M+ customers annually.
- Optimized the online ordering experience, improving page-load speed by 30% and increasing order completions by 15% within the first month.
- Delivered responsive, mobile-first interfaces using Vue.js, Nuxt.js, and TypeScript, and integrated APIs for complex ordering workflows.
- Partnered with cross-functional teams to support reliable releases and maintain 99.9% uptime during campaigns and peak-hour traffic.

Weeshr | JavaScript/TypeScript Engineer | Remote

Feb 2024 - Feb 2025

- Built internal dashboards and screens that improved operational workflows and enabled data-driven decisions.
- Developed responsive, interactive front-end solutions using Vue.js, Pinia, and TypeScript.
- Collaborated with QA to validate functionality and support high-quality releases.

Taojaa.com | JavaScript/TypeScript Engineer

Jan 2023 - Jan 2024

- Designed and optimized vendor landing and storefront pages using Next.js and React.js.
- Built and integrated APIs for newsletter sign-ups and product reviews using Node.js and Express.js.
- Focused on intuitive UI and scalable core features to support user engagement.

KiaKiaprint.com | Front-End Developer

Apr 2021 - Nov 2022

- Designed and implemented a user-friendly printing-order interface with React.js.
- Built front-end components for order management and tracking functionality.
- Integrated front-end functionality with backend services using Redux and Firebase.

EDUCATION

University of Ilorin - BSc. Accounting

2017

Skill Development Council Canada - Diploma in Software Development
